

## 1. Lip Butter –

**Shea Butter:** Our lip butter is infused with the natural moisturizing prowess of shea butter, extracted from the nuts of the African shea tree. Shea butter is renowned for its exceptional emollient properties, deeply moisturizing the lips and forming a protective barrier against harsh environmental elements. It helps to retain moisture, preventing dryness, chapping, and flaking, while promoting smoother and healthier-looking lips.

**Strawberry Extract:** Extracted from ripe, succulent strawberries, this lip-loving ingredient adds a burst of fruity freshness to our lip butter. Strawberry extract is rich in antioxidants, vitamins, and minerals that contribute to the overall health and vitality of your lips. It helps to nourish and revitalize the delicate lip skin, leaving it looking vibrant, plump, and irresistibly sweet.

### **Additional Benefits:**

**Intense Hydration:** The combination of shea butter and strawberry extract delivers intense hydration, instantly quenching the thirst of dry and dehydrated lips. Say goodbye to parched lips and welcome a soft, velvety-smooth texture.

**Long-Lasting Moisture:** Our lip butter forms a protective barrier that locks in moisture, providing long-lasting hydration throughout the day. You can bid farewell to constant reapplication and enjoy beautifully moisturized lips for hours on end.

**Nourishment and Repair:** The nourishing properties of shea butter and strawberry extract work in harmony to repair and rejuvenate your lips, addressing any signs of dryness, flakiness, or damage. Experience the transformative effects of our lip butter as it restores your lips to their natural, healthy state.

**Deliciously Irresistible Scent:** Immerse yourself in the delightful aroma of fresh strawberries that lingers on your lips, adding a touch of sensory pleasure to your lip care routine.

### **Application:**
